No-Show Policy

Our definition of a “no-show” is failure to keep an appointment or cancellation of an appointment with less than 24-hour’s notice.

Unlike many clinics which double and triple book patients, at Hawaii Pain Center, each patient is given a designated non-overlapping timeslot. We also differ from other clinics as we do not charge a no-show fee.

I understand that two no-shows will result in discontinuation of care and that changes to this policy are at the sole discretion of Hawaii Pain Center.
